

PREREQUISITE KNOWLEDGE & SKILLS

The foundations needed to thrive in this subject.

Who should study this subject?

The teaching of History inspires students to pursue their curiosity, facilitating their capacity to learn about and investigate the past. This A-Level course builds on the skills developed at GCSE, whilst stretching students to develop their independent learning style and more complex writing and argument skills. The ability to critically evaluate events and individuals of the past is key; we spend time looking at sources and interpretations that will challenge students' preconceptions of the topic they're studying. This is also a subject for students who have a genuine desire to understand how our world has developed over time, making meaningful links to the past in order to understand the shaping of our present.

Key Skills developed during KS4:

A willingness to embrace more challenging historical literature is key. We also spend significant time developing written essay skills, as well as source analysis and historiography.

St George's course entry requirements:

In addition to the entry requirement for sixth form, a grade 6 or above in History or English Literature
